TCCC ADVANCED MOULAGE KIT (TAMK)

TAMK wearable wounds are designed to give realistic tactile and visual feedback in a multitude of training environments. These wearable wounds boost your clinical presentation by giving injuries a three-dimensional look that accepts real medical interventions. Our ruggedized wound simulators are form-fitted to be anatomically correct, whether human worn or placed on a manikin.

SPECIAL FEATURES:

- Hyper-Realistic®
- Simulates real-world injuries
- Form Fitting
- Durable
- Comfortable
- Tactile feedback
- Expedient Application
- Versatile patient configurations
- Light and Dark Skin Tone options
